Islisan

College Gate, Tongi, Gazipur, Dhaka, Bangladesh

Gazipur, Dhaka

PROFESSIONAL EXPERIENCE

Junior Software Developer

QueryBD

Feb 2024 – Aug 2024

Gazipur, Dhaka

- Developed scalable software and analytics systems for business clients.
- Designed interactive dashboards for real-time data visualization and decision-making.
- Collaborated in building API-driven inventory and analytics solutions improving efficiency.

KEY PROJECTS

Synopsisize

Flask, NLTK, Python, HTML/CSS/JS

AI-Powered Text Summarizer

2025

- Designed a web-based platform for intelligent summarization of long documents.
- Implemented NLP pipelines supporting multiple file formats (PDF, DOCX, PPTX, TXT).
- Integrated category-based summarization optimizing results for different content types.
- Developed statistics dashboard showing word count, compression ratio, and readability metrics.
- Features dark/light mode, responsive UI, and open-source modular architecture.
- GitHub: <https://github.com/LsLisan/Synopsisize>

Carambola Leaf Disease Classification

TensorFlow, CNN, Python

Deep Learning Research Project

2024

- Built a convolutional neural network model for automated leaf disease detection.
- Applied data augmentation, transfer learning, and hyperparameter tuning for accuracy.
- Created a labeled image dataset (Carambola Leaf Disease Dataset) published on Mendeley Data.

DailyS

Python Tkinter, Firebase

Educational Chat Platform

2023

- Built real-time chat system for teacher-student communication with role-based access.
- Implemented admin approval workflow and secure message storage.

RESEARCH & PUBLICATIONS

EDUCATION

B.Sc. in Computer Science & Engineering

Daffodil International University

Jan 2022 – Jan 2026 (Expected)

CGPA: 3.51 / 4.00

Concentrations: Artificial Intelligence, Machine Learning, Data Science, Software Engineering

TECHNICAL SKILLS

- Programming:** Python, C, Java, Dart, SQL
- AI/ML:** TensorFlow, Scikit-learn, PyTorch, Pandas, NumPy, NLTK, Transformers
- Data Science:** Data Preprocessing, Visualization, Feature Engineering, Model Evaluation
- Web/Backend:** Flask, REST APIs, HTML5, CSS3
- Databases:** MySQL, Firebase
- Tools:** Git, GitHub, VS Code, Jupyter, Android Studio
- Cloud:** Google Cloud, Firebase,

PROBLEM SOLVING PROFILES

Beecrowd: [MD.LisanIslam](#)

Codeforces: [Lisan-5026](#)

ACHIEVEMENTS & ACTIVITIES

ICPC Participant

Represented DIU in ICPC regional contests (2021–2023).

Programming Contests

Active competitor in university-level algorithmic contests.

Open Source

Maintains open-source ML and NLP repositories on GitHub.

CORE STRENGTHS

Python Programming

Deep Learning

Natural Language Processing

Carambola Leaf Disease Dataset

Mendeley Data

📅 Dec 2024

- Published labeled dataset for ML-based leaf disease classification.
- <https://data.mendeley.com/datasets/jn857kmcnf/1>

Machine Learning for Plant Disease Classification

Research Paper

📅 In Progress

📍 Expected 2025

- Exploring CNN and transfer learning for image-based disease detection.
- Focusing on agricultural AI applications and precision farming.
